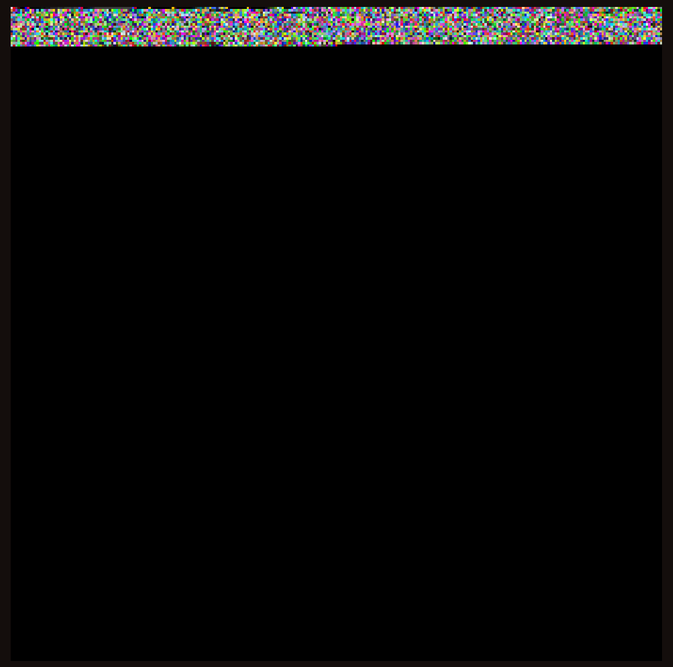
E MESSAGE

A VISUAL LEGACY, FADING FROM MEMORY

- **Avatar (2009)**
  - A groundbreaking 3D phenomenon,
  - #1 global box office of all time
- **Avatar: The Way of Water (2022)**
  - Visually stunning still
  - But audience feedback showed signs of narrative fatigue
- **Avatar: Fire and Ash (2025)**
  - 3rd installment in the franchise
  - 16 years since the original
  - The new generation lacks an emotional connection to the brand

FROM MEMORY TO DISCOVERY

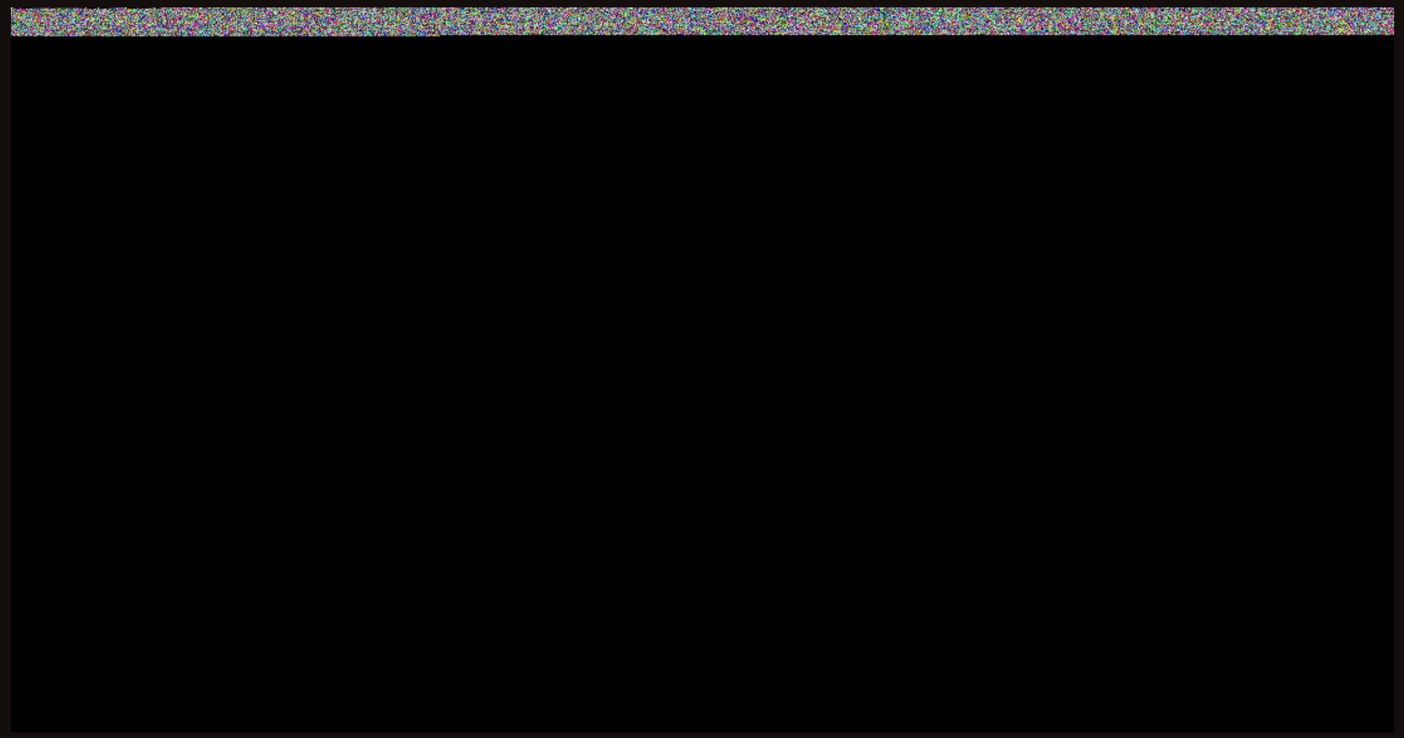


- **Original Core Audience**
  - Adults 25–45, moviegoers seeking technical innovation and cinematic spectacle
  - Strong emotional attachment to Pandora's world

- **Emerging Core Audience (2025 and beyond)**
  - Young adults
  - Digital-native and socially driven
  - Seek immersive, shareable, fast-impact experiences
  - Little to no nostalgic bond with the Avatar brand

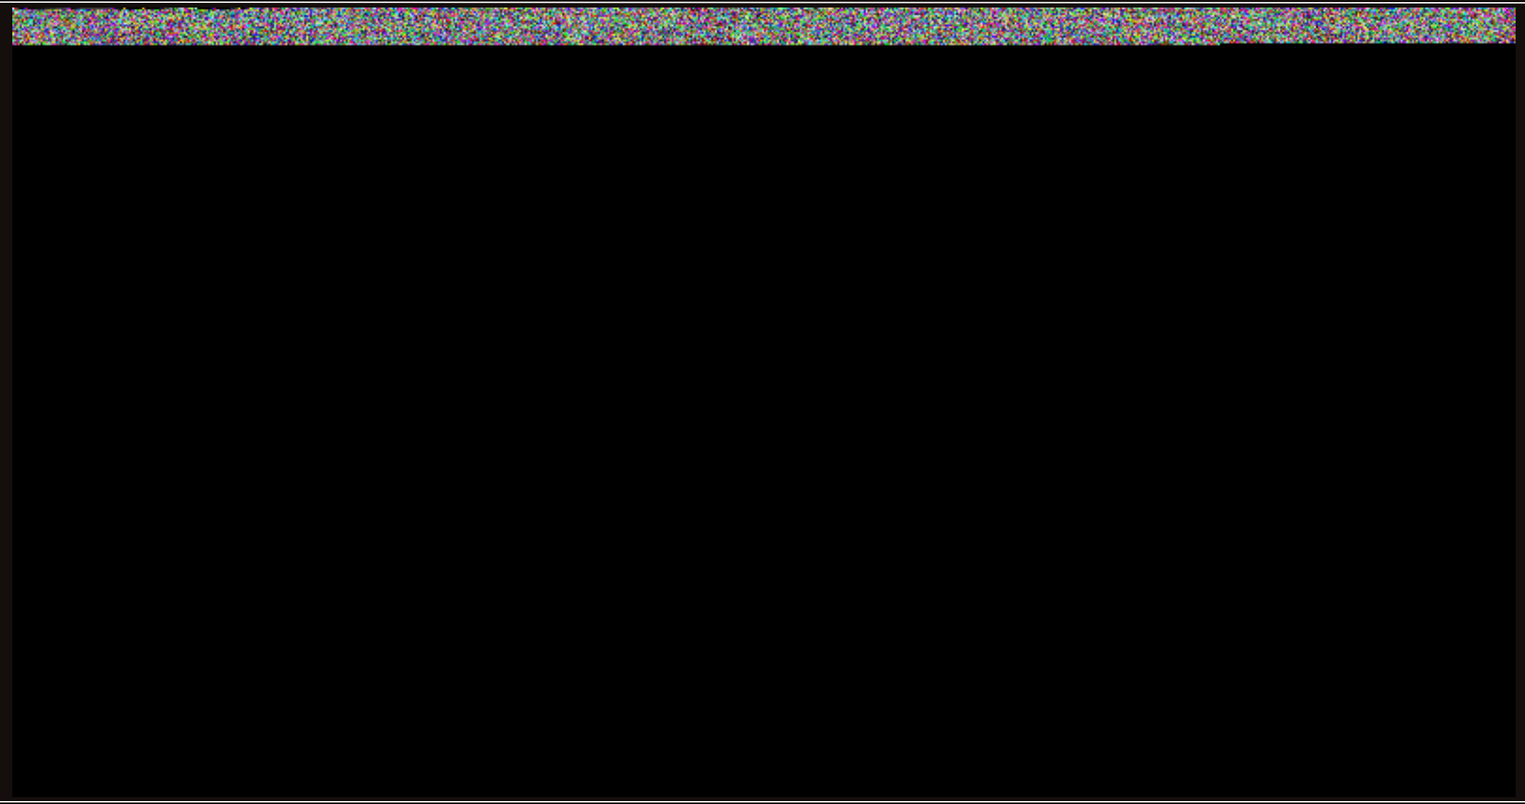
PART 1-C
CHOSEN CONSUMER SEGMENT

TARGET: YOUNG, VISUAL-DRIVEN EXPLORERS



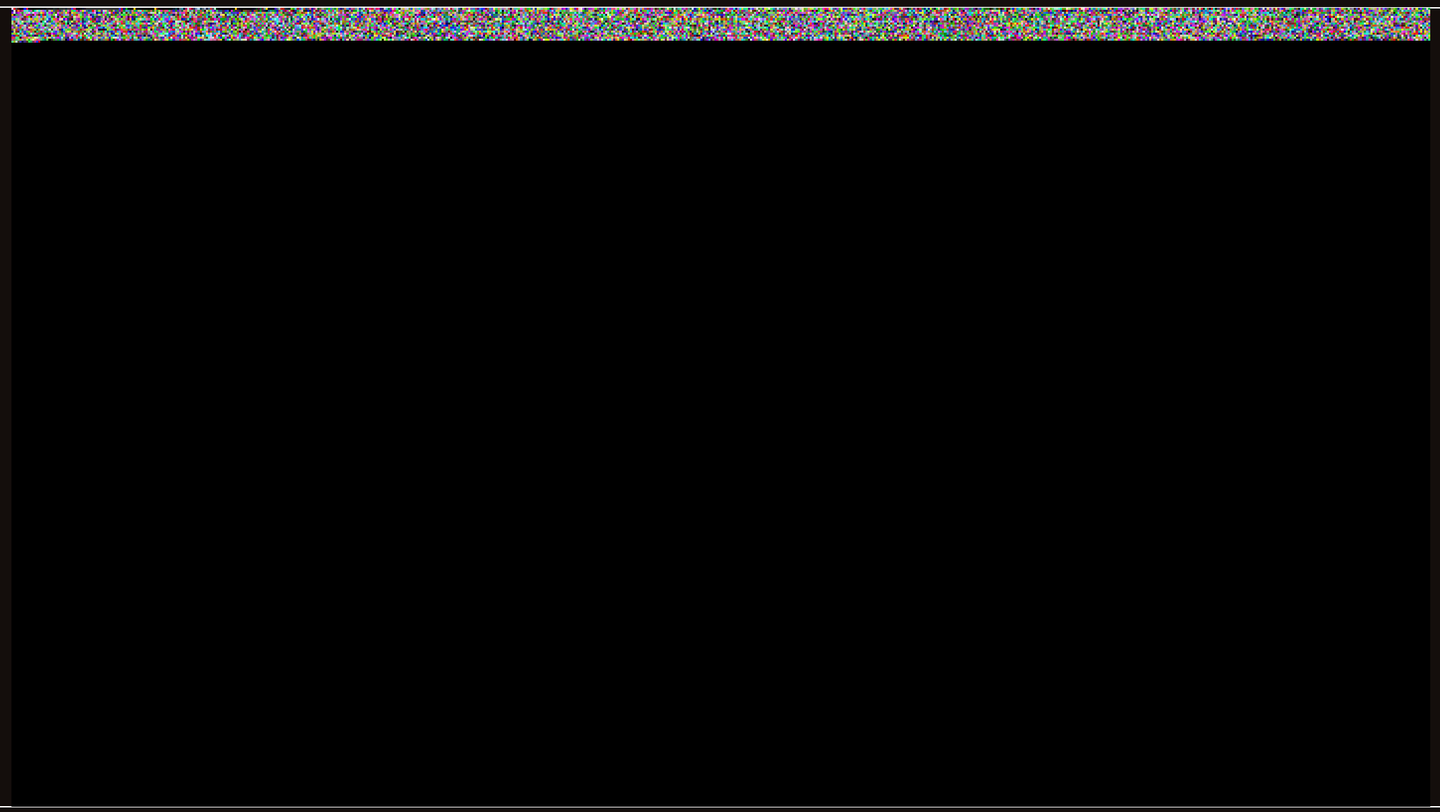
- **Demographic**
  - 18 to 25 years old
  - Skewed slightly male
- **Psychographic Traits**
  - Seek immersive, action-driven entertainment
  - Heavy users of TikTok, YouTube, Instagram
  - Value shareable and exclusive experiences
- **Strategic Reasoning**
  - Fast social sharing power
  - Leading the way in how entertainment is consumed
  - Essential to rebuilding the brand's popularity for the future

CHALLENGE: MAKE THE YOUNG CARE



- **Emotional Disconnect**
  - New audiences lack personal memories or emotional ties to Avatar.
- **Competing Attention**
  - Fast, social-first content dominates how young audiences consume entertainment.
- **High Expectations**
  - Technology alone is no longer enough to pull them into theaters.

THIS ISN'T THE AVATAR YOU REMEMBER



Our Message
